Forecast For Southwest England
Issued by Met Office Exeter
at 1600 on Thursday 21 Jan 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Scattered showers and clear spells. Frosty night.

This Evening and Tonight:
A mixture of clear spells and scattered showers, the showers most likely in the west. Some of these showers could turn wintry across the hills. A cold night with a risk of frost and icy patches developing under clear skies. Minimum temperature -1 deg C (30 deg F).

Friday:
A cold start with sunny spells and scattered showers in the west. Showers becoming more widespread through the afternoon. Cloud thickening by evening with outbreaks of more general rain. Maximum temperature 8 deg C (46 deg F).

Outlook for Saturday to Monday:
Rain and hill snow clearing to brighter skies on Saturday. Further rain and hill snow turning to sunny spells on Sunday. Drier with sunny spells on Monday. Feeling cold throughout.
